(h) Certification Regarding Responsibility Matters (Executive Order 12689). (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals—

(1) □ Are, □ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) □ Have, □ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) □ Are, □ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) □ Have, □ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds $3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability.
liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at 22.1503(b).]

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

5. Tasks.

5.1 Site Preparation, Removal of Existing Equipment.

5.1.1. Site Preparation Tasks.
   • Disconnect existing generators and existing automatic transfer switches.
   • Remove wiring, junction boxes, rigid conduit, flexible conduit, pipe straps, pipe connectors, elbows.
   • Remove generators batteries.
   • Retrieve diesel fuel from generator fuel day tank. Save in marked containers for fuel-use only. Do not use beverages or unmarked containers to store fuel. Use spillage-contention means to prevent a potential fuel spill. Make sure this fuel is clean and if so, save for use in new generator. Store in a secure, restricted, away-from children area.
   • Remove existing generators from current location using machinery: crane, tow truck, forklift. Move to a designated location within Compound.
   • Remove existing automatic transfer switches (ATS) from current location and move to a designated location within the Compound.
   • Apply plaster to walls, patch drill holes, and paint wall areas where conduit and ATS previously were. There must be a uniform visual appearance in all walls.
• Assess current setting pad and concrete beams on ground. Repair any damaged areas using the same materials of existing elements. Reinforce with supplemental steel bars, steel grid, and concrete with a compression resistance of \( F'_c = 200 \text{ kg/cm}^2 \), cement, cement mortar. Allow a minimum of 48 hours, for any concrete or cement to dry out.

5.2 Installation of Generators and Automatic Transfer Switches (ATS).
• The Contractor shall install the ATS-s wires following the manufacturer's manual and using the tools indicated in the manual. The Contractor must use torque-precision tools to ensure the proper tightening of wires and breaker switches to the required torque.
• The model of ATS is: **ASCO H03ATSB30800HG0F**
• The Contractor shall follow the generator manufacturer's installing manual for calibrating, programming and testing.
• The models of the generators are:
  - Generator 1: **Model DE200E0** 179.9 kVA 380/220 V, 50 Hz
  - Generator 2: **Model DE450E0** 400 kVA 380/220 V, 50 Hz

5.3 Labeling, Programming and Testing.
The Contractor shall identify and legibly label each device according to the function it does. The Contractor shall follow each manufacturer's manual and guidelines for the programming of the ATS-s to accomplish a successful generator kick-in & kick-out procedure.
The Contractor shall follow the generators manufacturer's installing manual for calibrating, programming and testing.
The Contractor shall perform a minimum of three tests by fully disconnecting the utility company power. Each test shall last 10 minutes. The Contractor shall document the results of the test, his/her observations about the test, and include it in a written report for the COR.
The commissioning of the two Caterpillar generators should be performed from a Caterpillar representative in country. This is mandatory.

5.4 Written Report and As-Built Drawings.
At the end of the work, the Contractor shall provide a written report to the COR describing each step of the work and the results of the test. The report shall include "Before", "During" and "After" digital photos of each part of the process. All photos must be clear, and representative of the work done.
The Contractor shall provide as-built drawings in PDF detailing: single line diagram, wiring path, measurements, name and location of equipment, devices, type of device, special specifications.
The Contractor shall remove any leftover materials from the main switch gear.
The Contractor shall provide and place a printed, laminated copy of the generators-ATS-s-house service wiring as-built drawing near the ATS, for the use and consultation of US Embassy.

6. Contracting officer’s Representative (COR)
The COR is delegated the authority to act for the Contracting Officer in matters concerning technical clarifications, inspections, acceptance of Contractor’s performance, oversight, and emergency requests. This includes certification of work in progress or completed; authorization to process payments, and the appointment of Government Technical Monitors (GTM) to assist in the administration of this contract. The COR on this contract is **Mr. Arben Mane**.
7.0 Security.

Upon notification of being the successful bidder, the Contractor should submit to the Contracting Officer, or to the Contracting officer’s Representative (COR), the names of all of the Contractor’s employees who may be working on this project. All employees will be required to submit the routine background investigation done by the Embassy’s Regional Security Officer (RSO) prior to working on this project.
